I Love Pahokee Day will feature Low Country Boil

Pahokee will celebrate "I Love Pahokee Day" with a Low County Boil & Fish Fry on Saturday, March 27, from 11:30 a.m. until 2 p.m.

The event is sponsored by the Chamber of Commerce and Pahokee Main Street.

"Some say the Low Country Boil originated in Louisiana, while others insist it came from South Carolina or Georgia," says Shirley Jarriel, Pahokee Main Street Coordinator. "We don't quibble over such details, we just enjoy the delicious mix of special spices cooked together with shrimp, sausage, boiled corn, new potatoes, onions and celery. We serve it with hushpuppies and iced tea for only \$10. For those who don't like such dishes, we offer a dinner of catfish fingers and all the trimmings for only \$6."

Tickets may be purchased from Chamber board members or at the Pahokee Chamber of Commerce.

Special entertainment will be provided by the Harvest Church Brass Ensemble, Pahokee Middle-Senior High School Multi-Cultural Dancers and Tasmin Mahfuz, who performs traditional Indian dances.

Volunteers are still needed to cook, serve, and sell tickets. Call the chamber at 924-5579 for more information.

Glades Central to host Criminal Justice Career Day

On Thursday, March 18, the Criminal Justice Academy Advisory Board at Glades Central Community High School will be hosting its annual Criminal Justice Career Day, in conjunction with Juvenile Justice Week.

There will be over 30 Criminal Justice agencies from the federal, state and local levels represented. Students who are enrolled in the Criminal Justice Academy at Glades Central, students from the Eagle Academy, and 8th and 9th grade students who have applied to the Criminal Justice Academy for next year will have a chance to gather information from all the agencies present.

The Palm Beach County Sheriff's Department Color Guard Unit will present the colors at 9 a.m. to start the day. Students will then rotate to each agency and at the conclusion, the City of Belle Glade Police Department will provide lunch for all participants.

Pastors' wives invited to meeting

All Glades area pastors' wives are invited to help in the preparation of a day honoring Glades area spiritual leaders.

The planning meeting is set for Thursday, March 25, at 5 p.m. at the Haitian American Community Council building, 309 South Main Street, Belle Glade (near Affordable Cleaners).

For information call Gerry at 992-0301.

Fire marshall labels Monday's fire at Winn Dixie "suspicious"

By Brenda Bunting
Editor

A fire that started in the men's restroom at the Winn Dixie store on South Main Street about 2 p.m. Monday is being called suspicious by the fire marshall's office.

Belle Glade Fire responded

to the fire in the Big Lake Plaza and put out the flames in about 15 minutes. The damage was estimated at almost \$50,000 and was contained to the restroom and an upstairs area.

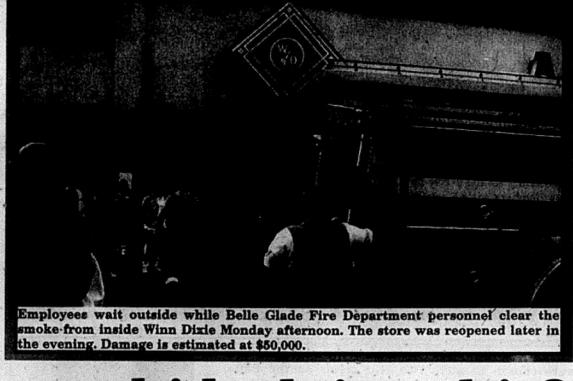

"Some people are saying the sprinkler system saved that

store, or it would have been another U-Save," said Sgt. Matthew Sweet with the Belle Glade Police Department, who is investigating the fire.

U-Save Supermarket was taken in a fire in 1987 and a new store was later built at the same location on Avenue E.

Police detectives are reviewing Winn Dixie's surveillance camera tapes to try to determine who was in the store at the time.

No one was hurt in the fire. A store manager at Winn Dixie said the store reopened for business late Monday evening.

Employees wait outside while Belle Glade Fire Department personnel clear the smoke from inside Winn Dixie Monday afternoon. The store was reopened later in the evening. Damage is estimated at \$50,000.

"Huffing"- are our kids doing this?

By Katrina Elsken
Contributing Editor

Kids who inhale chemicals may be looking for a cheap high, but it could cost them their lives or lead to a life of drug abuse.

Inhaling household chemicals, or "huffing," can be addictive and can lead to using other drugs, said Sgt. David Carhart of the Palm Beach County Sheriff's Office.

"It used to be more of a problem in the Glades," he said. "Now with crack cocaine so cheap, they've gotten away from sniffing."

Kids who started getting high on chemical fumes are graduating up to harder drugs, he said.

Inhaling chemical fumes, sometimes called "huffing" or "sniffing," is not a new problem. According to the National Institute of Health, the problem first surfaced in the 1950s,

when young people "sniffed" glue.

"Kids who 'huff' damage their brains. They basically become zombies," says Sgt. David Carhart

Addicts inhale volatile solvents, which are either in gas form or in liquids that vaporize at room temperature. These solvents are in a wide variety of household and office products.

Since the 1950s, the number of products containing volatile solvents has increased, along with the dangers.

The "high" from huffing comes from the way the human body reacts to these chemical vapors. When the addict breathes in the chemical vapors, the vapors get into the lungs and this shuts off the oxygen to the brain. This causes a quick form of intoxication

followed by drowsiness, staggering, lightheadedness and agitation, according to the NIH report. It can also cause the heart to stop, resulting in death.

The NIH term is Sudden Sniffing Death or SSD. According to the National Inhalant Prevent Coalition, there have been 240 cases of death from "huffing" inhalants since 1996. Officials suspect the death toll could be much higher, but since the substances inhaled are not illegal, there are no requirements for reporting them.

"Huffing" can also be a factor in other deaths such as fatal automobile accidents and suicides. A federal study of users by the Substance Abuse and Mental Health Services Administration of the Department of Health and Human Services estimated the number of new users increased from 380,000

in 1991 to 805,000 in 1997.

An NIH survey conducted in 1997 indicated that 20 percent of the nation's eighth graders admitted to have tried "huffing" at least once during their life.

The issue is difficult for law enforcement to control, say area law enforcement officials. The substances abused are not illegal. A child can walk into a supermarket, office supply store or convenience store and buy these products.

The substances are present in so many household products, it is impossible for stores or law enforcement to control it.

Kids who "huff" chemicals damage their brains, said Sgt. Carhart. "They basically become zombies. The brain damage seems to be even worse and more permanent than that caused by some of the other

drugs."

He said after a while the body becomes more resistant to a certain chemical and they no longer get the high they are seeking. That's usually when they turn to harder drugs, he explained.

Parents must become the first line of defense against inhalant abuse, say law enforcement officials. Parents should talk to their kids about the dangers and keep their eyes open for signs of trouble.

Sgt. Carhart said parents should acquaint themselves with the signs of inhalant or other drug abuse.

"You may find empty cans of what they're sniffing - in the trash and they have no reason to have that product in their room," he said.

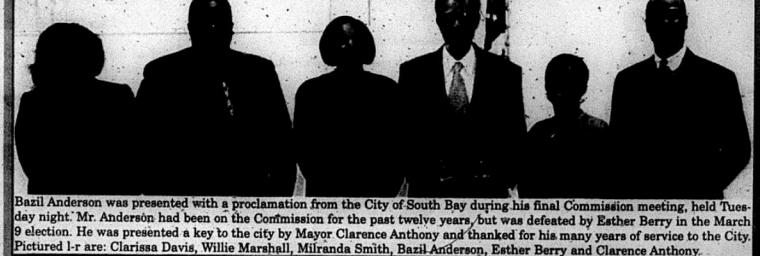

Next week: Recognizing the signs of abuse

Two die in head-on collision

A Belle Glade man and a Clewiston man both died in a head-on collision at State Road 25 and Okeelanta Road on Saturday, March 13.

Florida Highway Patrol handled the accident. Johnnie L. Lusane Jr., 48, of Belle Glade and Anthony McGrew, 23, of Clewiston died at the scene about 6:30 p.m.

Troopers say Lusane, who was driving north in the southbound lanes of SR 25, hit head-on into McGrew.

Basil Anderson was presented with a proclamation from the City of South Bay during his final Commission meeting, held Tuesday night. Mr. Anderson had been on the Commission for the past twelve years, but was defeated by Esther Berry in the March 9 election. He was presented a key to the city by Mayor Clarence Anthony and thanked for his many years of service to the City. Pictured l-r are: Clarissa Davis, Willie Marshall, Miranda Smith, Basil Anderson, Esther Berry and Clarence Anthony.

Task force working to sustain South Florida Ecosystem

First in a series

By TWILA VALENTINE

The area of central and south Florida from Orlando to Florida Bay will no doubt go down in history as the most studied ecosystem in the world. There are so many projects, groups and studies underway that the federal government formed a group to coordinate and oversee all of them.

In 1993, a federal ecosystem restoration task force was es-

tablished through interagency agreement. Its primary function is to coordinate the development of consistent policies, strategies, plans, programs, and priorities for addressing the environmental concerns of the south Florida ecosystem.

By 1996, the task force was formalized and expanded to include tribal, state and local governments and was legislatively created in the 1996 Water Resources Development Act. In this current form, it is serving as a clearing house, referee, and coordinating entity. It is designed to help guide the restoration effort by all the various government entities and groups, keep the efforts on track and ensure fiscal accountability.

At the present time, the South Florida Ecosystem Restoration Task Force is overseeing the work of the Everglades Forever Act, the Kissimmee River Restoration Project, the Central & South Florida Reservoir Study, and other efforts that are underway by federal, state, and academic entities.

The South Florida Ecosystem Restoration and Sustainability project consists of nearly 200 environmental restoration, growth management, agricultural, and urban revitalization projects, programs, and initiatives that are designed to make South Florida more sustainable in the future.

The overall goals of all the projects are to restore the natural hydrology of South Florida; enhance and recover native habitats and species; revitalize urban core areas to reduce the outward migration of suburbs and improve the quality of life in core areas.

Most of the studies are proceeding on the premise that on the current course the natural and built environments of South Florida are not sustainable. The environment, society and economics of South Florida are not discrete and separate systems but are related to interlinking subsystems that make up the South Florida ecosystem.

The South Florida Ecosystem Restoration Task Force consists of National Park Service;

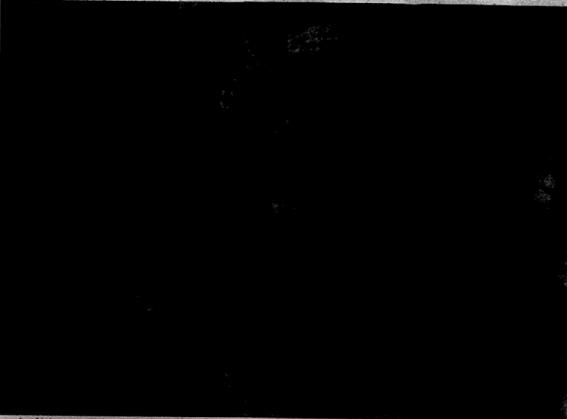

Bureau of Indian Affairs; U.S. Fish and Wildlife Service; U.S. Geological Survey; Natural Resources Conservation Service; U.S. Army Corps of Engineers; Office of Oceanic and Atmospheric Administration; National Marine Fisheries Service; National Ocean Service; Department of Housing and Urban Development; Department of Justice; U.S. Environmental Protection Agency; Federal Highway Administration; Federal Transit Authority; Miccosukee Tribe of Indians of Florida; Seminole Tribe of Florida; Florida Department of Environmental Protection; South Florida Water Management District; Governor's Com-

Auditions for THE WIZ OF THE WEST

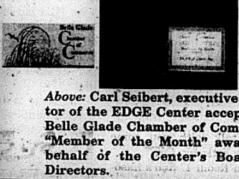

Auditions will be held for the Missoula Children's Theatre (MCT) production of *The Wiz of the West* on Monday, March 22, 1999 at Belle Glade Elementary from 3:30 p.m. to 5:30 p.m. All those auditioning should arrive at 3:30 p.m. and plan to stay for the full two-hour audition. Some of the cast members will be asked to stay for a rehearsal immediately following the auditions.

Among the roles to be cast are Dotty, Munch, Scared Crow, Lion, Hawk-nose Halley, Dr. Ozzy, Top Dog, Mad Dog, Bad Dog, Coyotes, Munchkin, Buzzards and Tarantulas. Students ages K through 12 are encouraged to audition. No advance preparation is necessary. Assistant Directors will also be cast to aid in rehearsals throughout the week, and to take on essential backstage responsibilities. Missoula Children's Theatre touring productions are complete with costumes, scenery, props and makeup. The MCT Tour Actors/Directors will conduct rehearsals throughout the week from 3:45 p.m. to 8:15 p.m. each day.

The Wiz of the West will be presented on Saturday, March 27, at 3 p.m. and 7:30 p.m. at the Dolly Hand Cultural Arts Center. For ticket information, contact the box office at 922-6160.

Below: New Chamber members...Two new members were chosen to serve two year terms on the Belle Glade Chamber of Commerce Board of Directors. They are Norman Jenkins with Glades Correctional Institution and Lee Sutterfield with the Palm Beach County Sheriff's Department, Glades Sub-station.

Keeping our kids safe from tornadoes

By Mike Lyons, WPBF-TV

Meg Saucedo was an eyewitness to history. Meg was seven years old when an F5 tornado, with winds over 300 mph, tore through her hometown of Xenia, Ohio.

That twister was one of 148 tornadoes that rumbled across the Midwest in a 24-hour period in April of 1974. Dozens of people were killed, hundreds more injured in what has become known as the "super tornado outbreak".

Harshest hit was Xenia, a small community not far from Dayton. The twister destroyed half the town, killing 34 people and causing \$100 million in property damage.

"I'll never forget that day," Meg told me in our newscast. Today, Meg coordinates coverage of severe weather and other news events as a local television producer.

"I was playing outside with my sister when I saw the twister," she told me. "We ran into the house and down into the basement."

The tornado spared Meg's house, but took out most of the block. "The damage was staggering," she said. "I've never seen anything like it."

Neither had anyone else in Ohio. The "super outbreak" changed the way Ohio prepares for severe weather. New regu-

lations were instituted, including requiring all schools to conduct tornado drills.

States with a higher tornado frequency - Texas, Oklahoma, Florida - do not require schools to hold tornado drills. That is one of the many startling facts uncovered during a four month investigation into weather safety at Florida schools conducted by my WPBF-TV colleague, Greg Padgett.

What he found is surprising and disturbing.

Many schools, both public and private, do not conduct regular tornado drills. In fact, Greg discovered one high school had not held a tornado drill in 12 years.

Schools do practice fire drills, but tornado drills are another matter. They are not required by state law (only in Ohio) and each individual school district is free to determine its own policy.

Even more alarming, Greg discovered that some school weather plans may actually place students in danger. At least two principals plan to move students out of portable classrooms and into the gym or cafeteria in the event of a tornado. That plan of action is not endorsed by the National Weather Service.

"You get people in large, free-span rooms, and the roof comes down and the windows blow in, it's a very dangerous situation," said Jim Lushine of the National Weather Service's Miami office.

Florida tornadoes are short-lived storms that require quick action. Yet, Greg discovered one school took over one hour to respond to a recent tornado warning.

Other schools are using old and inaccurate information, like telling students and teachers to open the windows and doors if a storm approaches. Still other schools lack basic severe storm warning equipment like a weather radio.

Not every school district has problems. Martin County has an excellent weather safety program, including requiring all schools to conduct tornado drills.

Yet, Greg unearthed flaws in several school weather plans, flaws that should be addressed now, before the start of Florida's severe weather season.

Administrators should take a fresh look at each school's weather plan, conduct at least one tornado drill and make sure each weather radio is operating properly.

With the right preparation, Florida's school children can be eyewitnesses to weather history, and like Meg Saucedo, live to tell about it.

Local farmers named to advisory committee

Florida Farm Bureau President Carl B. Loop Jr. has appointed the following members of the Western Palm Beach County Farm Bureau to serve on the State Advisory Committee during 1999.

Tax Committee - Edwin Jones, Pahokee; Sugar Committee - Rick Roth, West Palm Beach; Karl Larsen, James Shine and Craig Patte, Belle Glade; Roger Beaton, Pahokee and Mark Sodders, North Palm Beach; Labor Committee - Ann Holt, West Palm Beach.

"Our 20 advisory committees are made up of individuals who are recognized experts in the production of their commodities," Mr. Loop said. "The committees play a vital role in determining what action Farm Bureau will take on issues." Each advisory committee addresses a specific commodity, group of commodities, or an area of broad concern to farmers, such as water quality and availability.

Voting delegates adopt policies at the Federa-

tion's annual meeting. The 1999 annual meeting will be held Oct. 16-19 at the Hyatt Regency Westshore Hotel in Tampa. In the months leading up to the annual meeting, each advisory committee will meet to discuss issues within that committee's area of concern. The committees may offer specific policies for approval by the delegate body at the annual meeting. County Farm Bureaus also may propose new policies or changes to existing ones. Once adopted, they become the Florida Farm Bureau Federation's "marching orders" for the following year.

"Farm Bureau's unique policy development process assures individual, active members are the driving force behind our actions," Mr. Loop observed. "Farm Bureau is a true grass-roots organization." Florida Farm-Bureau Federation, headquartered in Gainesville, has more than 133,000 member families. It is the state's largest general interest agricultural organization.

The Heart of Healthcare in the Glades

We're Here For You...In An Emergency.

...with 24-hour physician-staffed Emergency Department, complete with a specially designed child-friendly room, separate x-ray equipped room and well-trained, experienced staff.

We're Here For You...
With Radiology...

...to give your physician diagnostic assistance with our full spectrum of radiology services, including:

Mammography
Fluoroscopy
Ultrasound
Nuclear medicine
CT scanning
MRI

We're Here For You...
With Birth...

Ergonomic Evaluation/Training
Biokinetic Dynamometer Evaluation/Training

through our clinic - Physicians Park, offering:
Family Practice and Internal Medicine
Pulmonology
Preventive Care
Women's Health
Treatment of Minor Injuries
Pre-Employment and Annual Physicals
School and Sports Physicals
Immunizations

Industrial Medicine - PFTs, Drug Screens, PT Exams
Accepting most major insurances, HMOs, Medicaid and Medicare. We accept walk-ins and appointments are available.

...with physicians offering services including:

Obstetrics, Neonatology and Pediatrics
Family Practice and Internal Medicine
Pulmonology, Neurology and Pain Management
Gastroenterology
General, Vascular, Orthopaedic and Hand Surgery

Whole grain foods can reduce risk of disease

Did you eat whole grain cereal for breakfast this morning? If you did, you may have increased your chances of a long life.

A study published March 1, 1999 in the American Journal of Public Health shows that eating whole grain foods such as dark breads and whole grain breakfast cereals is associated with a 15 to 25 percent reduction in deaths by many major diseases including heart disease and cancer.

"There were striking inverse associations of whole grain intake with the risk of death," said the study's author, David R. Jacobs Jr., professor of epidemiology at the University of Minnesota. "We believe these findings on whole grain intake have important public health implications."

The news was highly publicized by the makers of whole grain cereals such as Wheaties. "We've had sports legends such as Babe Didrikson, Lou Gehrig, Babe Ruth, Bruce Jenner and Michael Jordan grace the Wheaties box, but because of this research, maybe the next person on the box ought to be a scientist who champions the cause of whole grains," stated Jim Murphy, Wheaties marketing engineer, in a press release.

The study, titled "Is Whole

Grain Intake Associated With Reduced Total and Cause-Specific Death Rates in Older Women," was funded through a grant from the National Institutes of Health. Researchers gathered data on 38,740 women, ages 55 to 69, over a ten-year period.

Women who consumed at least one serving of whole grain food per day had lower risk of serious disease than those who did not eat whole grains, according to the study. The study also showed that those who ate two servings of whole grain foods reduced their risk even further.

The researchers adjusted the results to take into consideration differences in the subject's lifestyles and other risk factors.

Mr. Jacobs said scientists may not completely understand how whole grains reduce the risk for heart disease and cancer, but they believe the key components of whole grains work together. Whole grains combine antioxidants, minerals, fiber and phytoestrogens.

"The nutrients in whole grains may act synergistically and the study of individual food constituents may mask the total health effect of whole grains," he said.

Another recent study showed fiber alone did not significantly reduce the chance of colon can-

cer. Mr. Jacob's study showed consumption of whole grains does reduce the chance of colon cancer.

It might be that it's the fiber in conjunction with the whole grains, Mr. Jacobs said.

The study showed consumption of whole wheat foods may lead to a reduction in the risk of colorectal, colon, rectum, gastric, oral, pharyngeal, tongue and esophageal cancer.

According to the study, Americans are eating fewer whole grain foods than they did 100 years ago.

In 1900, the average American consumed about 10 pounds of whole wheat flour eat year. In 1997, the average American consumed only 2.4 pounds of whole wheat flour.

What other foods should you be eating?

"Food Nutrition and the Prevention of Cancer" lists the following foods as the top ten cancer fighters:

• Broccoli - Broccoli is high in vitamins, low in calories and just plain good for you. Broccoli also helps the body rid itself of waste materials and free radicals.

• Tomatoes - Tomatoes contain lycopene, a powerful antioxidant. If you can't or don't eat cooked tomatoes regularly, you can get it in supplement form. The tomatoes

By Katrina Elskens
Contributing Editor

should be cooked because the body can absorb the nutrient easier this way.

• Rosemary - This herb helps you eat food without adding salt. As an added benefit, Rosemary contains antioxidants.

• Green tea - Research in China has shown drinking green tea, which is a good source of polyphenols, lowers the risk of esophageal and prostate cancers. Black tea is also beneficial, but has the polyphenols in lower amounts.

• Garlic - Garlic helps boost the body's immune function. It also contains antioxidants. (And if you read the Valentine's Day column, you know garlic is also considered an aphrodisiac.)

• Soy - Soy products include tofu, soy flour and soy milk. These

contain isoflavones which lower the risk of breast cancer. It's also a good source of protein.

• Flaxseed - Flaxseed contains omega 3 fatty acids which appear to help prevent the growth of tumors. Flaxseed can be found in breads sold in health food stores.

• Grapes - Grapes contain resveratrol and antioxidants which slow the growth of cancer.

• Turmeric - Turmeric is a spice which has been found to reduce the risk of colon and stomach cancer.

• Medicinal mushrooms such as maitake, reishi and shiitake.

Studies have shown these

mushrooms can help cancer patients who are going through chemotherapy. They are also beneficial to those with leukemia. They can be added to soups and stews. Check with your doctor about using them and which ones to try. They can usually be found in health food stores.

Remember, before starting any diet or exercise program, check with your doctor. This is especially important for those on medication for other health problems.

For more information on healthy foods, check out the books available at your local library.

ROBERT ROTELLA, D.D.S. PEDIATRIC DENTISTRY

WHO'S WHO IN MEDICINE AND HEALTH

The pediatric dentist is the specialist who is dedicated to the oral health of children from infancy through the teenage years. The very young, pre-teens, and teenagers all need different approaches in dealing with their behavior, guiding their dental growth and development, and helping them avoid future dental problems. The pediatric dentist is best qualified to meet these needs.

Pediatric dentists such as Dr. Robert Rotella (Dr. Bob), have had special training which allows them to provide the most up-to-date and thorough treatment for a wide variety of children's dental problems.

They are trained and qualified to treat special patients who may have emotional, physical, or mental handicaps. Because of this specialized training and commitment to

comprehensive oral health, many parents wisely choose a pediatric dentist to treat their children in a very similar way in which they choose a pediatrician to provide their children's medical care.

To help your child stay totally healthy, the pediatric dentist often works with pediatricians, other physicians, and other dental specialists. Healthy children as well as hospitalized, handicapped, and chronically ill children are often served best through this team approach—the pediatric dentist is an important part of the child's health team.

For further information on treatment procedures or help with appointments, you can reach Dr. Rotella's office at 992-9560. His office is located in Belle Glade at 141 S. Main St., Suite 161

ER Chronicles: "We'll have to give him some blood"

By Arlen R. Stauffer, M.D.

The queasy feeling that Ron had in his stomach the past few days was much worse this morning. That dull ache was getting real annoying. He was feeling quite weak.

"Hey Ellen, do I look sick to you?" Ron got his wife's attention.

"You know, Ron, I've been telling you all week that you were looking pale! I don't know why you won't go to your doctor! You're so frustrating sometimes!"

Ron puffed on his morning cigarette, and took a last sip of coffee. As he began rising from the kitchen chair, the room was spinning, and he slumped to the floor.

"Hi - Medic 74 here. We've got a 46 year old male with nausea and weakness for a few days, and now he passed out in

"Sounds like this guy's bleeding, and is kind of shocky. Let's double up in Room 1."

Ron's stretcher was wheeled into Room 1 as the ER nurse finished rearranging the extra bed and cardiac monitor. The nurse and an EMT approached Ron from both sides of his bed. He looked up at these strangers with no small amount of apprehension.

"I'm going to start another IV line, Ron, while she gets some of your blood to test in the lab. The doctor will be here in a minute. Just relax and let us take care of you."

The calm voice helped a little.

"Hello, I'm Dr. Cortez," The words were out before she even got to Ron's bed: "Are you

twice a day or as instructed by a physician, can be purchased at most pharmacies.

Asthma is a chronic inflammatory lung disease that, according to the National Heart, Lung and Blood Institute, affects approximately 15 million Americans, four million of whom are under the age of 18. Asthma causes 500,000 emergency room visits or hospitalizations and more than 5,000 deaths each year. Studies have shown that up to 50 percent of these visits, stays and fatalities could be prevented if patients knew more about available asthma medications and self-management tools.

A spacer, available by prescription only, is a chamber through which inhaled asthma medication is released. Using a spacer can make medication easier to take, more effective and can lower incidence of side effects. NIH recommends that inhaled corticosteroids be used in conjunction with a spacer to improve inhalation technique and reduce side effects. In fact, one corticosteroid medication, Azmacort (triamcinolone acetonide) Inhalation Aerosol, is clinically tested and approved with a built-in spacer eliminating the need to purchase a special spacer device.

NIH also states that self-monitoring, including the use of a peak flow meter, is an important part of effective asthma self-management. A peak flow meter is a small, portable device used to measure the volume of air that is blown out of the lungs. Peak flow meters, which are typically used

(NAPSA)-If you have asthma, you probably know the fear and uncertainty that can accompany an asthma attack. But even if you take your medication regularly, you still may be putting yourself at risk if you don't own, and use, two of the most important tools in effective management of the disease-spacers and peak flow meters—the tools of the trade."

"With asthma on the rise, especially in children, the need for greater patient knowledge of the disease and its proper management are 'necessities,'" says William Storms, M.D., a practicing allergist in Colorado Springs and associate clinical professor of Medicine at the University of Colorado Health Sciences Center in Denver. "Spacers and peak flow meters are two essential devices that I make sure every one of my patients owns and knows how to use. For some, it can even mean the difference between life and death."

The 1997 National Institutes of Health (NIH) guidelines for an effective asthma treatment plan include physicians teaching patients essential skills of self-management. The guidelines con-

tain twice a day or as instructed by a physician, can be purchased at most pharmacies.

Asthma is a chronic inflammatory lung disease that, according to the National Heart, Lung and Blood Institute, affects approximately 15 million Americans, four million of whom are under the age of 18. Asthma causes 500,000 emergency room visits or hospitalizations and more than 5,000 deaths each year. Studies have shown that up to 50 percent of these visits, stays and fatalities could be prevented if patients knew more about available asthma medications and self-management tools.

Azmacort Inhalation Aerosol is indicated in the maintenance treatment of asthma as preventive therapy. Azmacort is not indicated for the relief of acute bronchospasm. In clinical trials, the most commonly reported side effects were hoarseness, dry and irritated throat, dry mouth, headache, and sore throat. As with all inhaled bronchial steroids, adrenal insufficiency may occur when transferring patients from systemic steroids.

These two simple tools—the

spacer and peak flow meter-can make a world of difference to both the health and quality of life of asthma sufferers. With proper education and disease management, patients should be able to better manage the debilitating effects of asthma," states Dr. Storms.

Other symptoms are less common and include nausea or loss of appetite. Bleeding can occur, and at times can be life-threatening.

About 90% of ulcers are caused by a bacterium, *Helicobacter pylori*, and not by spicy food, acid, or stress. Because of this fact, ulcers can be cured with the right antibiotics.

Ulcers afflict 25 million Americans of all ages. the most common symptom is a gnawing or burning pain in the upper abdomen. This pain can occur at any time, and may be temporarily relieved by food or by taking antacids.

OPINION PAGE

The Sun INVITES YOU TO SPEAK OUT! (561) 996-6636

*Speak Out is our 24-hour opinion line.
Call 996-6636 to express your opinion or ask questions about public issues.
You are not required to give your name. When we want you to speak out freely, the newspaper reserves the right to edit calls for clarity, brevity, relevance and fairness.*

Speeding officers

"I'm calling about the person who called and talked about the Pahokee police officers and how they speed through town."

If this person had a police scanner and could hear all the calls they go to, the 9-1-1 calls, etc. Each one of those 9-1-1 calls have to be answered and the problem is, 99.9 percent of those are prank calls and they have to go to each one of them as if they were life-threatening situations.

So, if that person who is complaining had a 9-1-1 call and the police took their time getting to their home, they wouldn't like that at all. They would want the same courtesy extended to them as these fake calls, because every one of those 9-1-1 calls have to be answered, regardless if they are fake or not.

Thank you."

Why should they care?

"I was very excited when all the concerned citizens of Pahokee showed up at the council chambers the night the issue came up about residents living in the campground."

However, I learned that we have one citizen living on East Main Street that's got her house up for sale. So, what's her concern?"

We have several on Bacon Point Road, one only living here a couple of months out of the year and who does not spend a dime in the Glades - takes all their money to the coast, and spends it.

So, I don't really understand what their concern is at this point, other than just being nosy.

Thank you."

It's great that we're going to clean up Belle Glade

"I'm calling once again about the vehicles on private property issue. I am not a politician, nor am I related to any politician."

If you would have cared to have taken the time to read the original article in the Belle Glade Sun, you would have known too, that the ordinance was passed 32 years ago.

Obviously, this ordinance has negatively affected you directly so you are lashing out at politicians and everyone else. Why don't you

focus your energy on cleaning up your mess instead of being part of the problem?"

I did not say "Belle Glade IS a hell hole", but, it will be if someone does not enforce the codes to get the trash and the eyesores cleaned up. I'm sorry if it hits your pocketbook, but it is your mess, so clean it up, or pay.

I'm very happy to see that there has been a clean up planning team formed, and if you didn't see that article either, it was on page 2, top left, in the March 11 Belle Glade Sun, since you missed the first one and didn't know the date when the ordinance was passed.

It's obvious our politicians and community leaders see the need to clean up and are acting on it. I would also like to know if there's a number I can call to volunteer to help clean up and help enforcing with the codes. I need it. Thanks!"

Editor's note: Residents are encouraged to participate in the Saturday, April 1 Belle Glade Clean Up. For more information you can call Tonya Faulk or Kevin McNamara at the Sanitation Department. The number is 992-1638.

Editor's note: Rob Finke, executive director of Palm Tran responds to last week's Speak Out concerning discontinuation of service at Pruitt Village.

In response to the caller who questioned why Palm Tran had chosen to end service to Pruitt Village in Belle Glade, the decision was made after carefully evaluating the route and determining its value to the community. Initially, local citizens requested Palm Tran stop at several of the housing areas off Airport and Duda Roads. A bus was assigned to run through the areas including Pruitt Village for a full sugar growing season. Unfortunately, ridership levels were very low. In addition to the low ridership, the route was a very bumpy one and other passengers complained about going out of their way over unpleasant roads. Both factors led to the decision to end service to the area. Palm Tran regrets that we are unable to accommodate everyone who might need to use public transportation, but with limited

Correction

In a Looking Back Through Time photograph in the March 4 edition we showed a photograph taken in the 1950's of the Woman's Club of Belle Glade. The granddaughter of the first Woman's

Club president called and said her grandmother's name was Mrs. J.F. Brown, not T.C. Brown. Mrs. Brown was the first president of the Woman's Club of Belle Glade.

Sun Spots

Church to host Mens Day Program

The men of St. John's First Missionary Baptist Church, 600 S.W. 8th Street, Belle Glade, invite the community to attend their annual Men's Day Program. The theme for this year's program is "Christian Men Letting Their Light Shine for the Glory of God."

The event will be Sunday, March 28 beginning with the morning program. Lunch will be served at a 5 p.m. worship hour titled "Portraits of a God-Man," will begin at 3 p.m.

Wanted: Classmates from the Class of 1990

A planning committee for the class reunion of the class of 1990, Glades Central, is seeking former class members.

There will be a meeting on April 8 at 4 p.m. at Sticks' place, 340 N.W. 11th Street, Apt. 8.

For further information call Stick at 914-0793 after 30 p.m. on weekdays or anytime on the weekend. Classmates can also call Lula at 992-9326.

Harvest Queen applications available

Applications to participate in the 1999 Harvest Queen Pageant are ready and may be obtained at Atlantic Pacific Insurance, 204 N.W. Ave. L, Belle Glade or by calling Becky White at 996-5800.

Participants must be 16-21 years of age to be a contestant and the pageant is scheduled for April 17. Deadline to enter is March 19. Tickets will be on sale again this year at Nations Bank (formerly Barnett Bank) beginning March 25.

The Harvest Queen pageant is sponsored by the Belle Glade Lions Club and Palm Beach Community College-Glades Campus and is coordinated by Mrs. Cathy Lee.

Gospel Fest

There will be a Gospel Fest on Saturday, March 27. The Gospel Fest will be held at Tanner Park in South Bay from 10 a.m. until 4 p.m.

The date was given wrong in last week's paper. Anyone with questions can call Jenny Patterson on her beeper at 1-888-402-6244.

Gator Scramble

Glades Day School will host

their 10th Annual Gator Scramble on Saturday, March 20 at the Belle Glade Municipal Golf Course.

Registration begins at 8 a.m. and tee-off will be at 9 a.m. Refreshments will be available.

Call the Pro Shop to register at 996-6605.

Barbecue to benefit Debbie Lantz

There will be a carry-out only medical benefit barbecue for Debbie Lantz on Saturday, March 20 from 10 a.m. to 2 p.m. at Sugar Cane Growers Cooperative of Florida. The event will be at Labor Camp 2 on West Sugar House Road.

Chicken, baked beans, cole slaw, corn on the cob and rolls will be served for \$6. For more information and tickets please call SCGC Personnel Dept. at 996-4736.

Palm TransVan Outreach dates

Palm Tran's free community outreach Palm TransVan is in full gear, traveling county-wide with valuable information on Palm Tran and Spectran. Specialists will be on hand for travel planning, answering questions and providing Spectran eligibility applications if requested.

They will be at the Belle Glade Senior Citizens Center on March 30 from 10 a.m. to 1 p.m.

Registration open for summer baseball

Pahokee Bambino Babe Ruth League will begin registration for a summer baseball program. All children ages 5-12 will be accepted. Registration will take place March 20 at the Pahokee Fire Department from 10 a.m. until 3 p.m.

The registration fee is \$35 and parents or guardians must bring the child's birth certificate or Babe Ruth ID card, in addition to any health insurance information.

To participate in the Farm League a child must be five years of age before August 1, 1999. To participate in Little League a child is not eligible, for play if he or she turns 13 before August 1.

Parent participation is encouraged and welcomed.

PBCC Health Fair

Palm Beach Community College's 1999 Health Fair, featuring over 20 local agencies, will

be presented March 23-25. The scheduled participants will include the Lung Mobile, Mothers Against Drunk Driving, Palm Beach County Kidney Association and Med-Mobile.

Additionally, PBCC's nursing department will offer free blood pressure checks and Physicians Hearing Center will give free hearing tests.

The event will be held at the Glades Campus, 1977 College Drive, Belle Glade on March 25 from 10 a.m. to 2 p.m. and is free to the public.

Auditions for "The Wiz of the West"

Auditions will be held for the Missoula Children's Theatre production of "The Wiz of the West" on Monday, March 22 at Belle Glade Elementary from 3:30 to 5:30 p.m. Students ages K through 12 are encouraged to audition. No advance preparation is necessary. All those auditioning should arrive at 3:30 p.m. and plan to stay for the full two hour audition.

For more information call the Dolly Hall Cultural Arts Center at 992-6160, or see the article on Page 2.

Black Gold Volleyball applications available

The Black Gold Jubilee Volleyball Tournament is set to begin on Saturday, April 24 at 9 a.m. at the Belle Glade Marina.

Applications to enter a team in the tournament are available at the Belle Glade Chamber of Commerce, City Hall or at Glades Day School. Deadline is April 16. T-shirts will be given to each participant. The tournament is limited to the first 10 teams. Contact Dick Schmidt at 996-6029 days or 996-8782 evenings for more information.

Photography Contest deadline April 1

The deadline to enter the Black Gold Jubilee Photography Contest is Thursday, April 1 at 5 p.m.

Categories include landscapes or still life, character (people), or nature photographs. The photo must have been taken in the counties surrounding Lake Okeechobee and taken in 1998 or 1999.

Applications and further information are available at the Belle Glade Chamber of Commerce or City Hall.

*All-star event

FROM LAST WEEK

WINSTON CUP SERIES

Jeff Gordon won the 44th Winston Cup race of his career, outrunning Bobby Labonte to win the Cracker Barrel 500 at Atlanta Motor Speedway.

Gordon took the lead for good on the 31st of 325 laps in the rain-delayed race. His Chevrollet came out of the pits second to Labonte at lap 300, but passed the Pontiac driver five laps later and took the lead when Sterling Marlin made his final pit stop.

Mark Martin finished third, Jeff Burton, fourth, and Dale Jarrett, fifth, all in Fords. Mike Skinner maintained a 32-point lead over Labonte in the season standings with a sixth-place finish.

BUSCH GRAND NATIONAL

Winston Cup driver Mike Skinner took the checkered flag in the Yellow Freight 300, only to have the victory overturned in a post-race inspection.

Skinner's disqualification gave Pontiac driver Dave Blaney his first Busch Grand National victory. Blaney is a former star of the World of Outlaws sprint-car circuit.

FEUD OF THE WEEK

Mike Skinner vs. NASCAR

The governing body disqualified Skinner, stripping him of his victory in the Yellow Freight 300 Busch Grand National race for using an "unapproved" cylinder head. "Yesterday (March 13) was wrong," said Skinner. "It was a bad call. Shame on NASCAR for doing that. I'm very upset about it. I'm behind NASCAR 100 percent. I love this series, love being here, don't get me wrong, but they were wrong. If they're mad at the Winston Cup drivers for winning all the Busch races, they can pick up the phone and change their opinion."

NASCAR This Week's Monte Dutton was his opinion: "Skinner has won a number of truck races and unofficial Winston Cup events in Japan, but thanks to this disqualification, he still has not won an official NASCAR touring-event race in a car."

AROUND THE GARAGE

Trump, NASCAR announce new speedway agreement

By Monte Dutton

NASCAR This Week

HAMPTON, Ga. — One week after NASCAR operatives were planting rumors that Donald Trump had little chance of getting a Winston Cup race, William C. France announced an agreement between NASCAR-affiliated International Speedway Corp. and Trump to build a speedway in the New York City area.

France said ISC will own the track, with the Trump Organization retained as "developer." The prime site apparently is no longer in the Riverhead area of Long Island, where Trump reportedly made a \$55 million offer. Trump himself said Friday that five different sites are being considered, that

five more will probably be considered and that the Long Island site is no longer the favorite.

NASCAR president France, whose brother Jim heads ISC, said the track would be built either in New York, New Jersey or Connecticut. Trump cited traffic problems as the major obstacle to building at the Riverhead site.

ENVIRY RECORD: Qualifying performances have made Tony Stewart the clear favorite for Winston Cup rookie of the year. The ex-Indy Racing League driver has qualified in the first round at every race, with a second at Daytona and a third here.

It couldn't have worked out

better for Stewart, who by virtue of driving for a team, does not have access to provisional starting positions early in the year. He currently ranks 25th in the point standings, meaning that he will have provisional starting points next week at Darlington. The provisions are based on ear-owner points, but Stewart's car (owned by Joe Gibbs) also ranks 25th there.

IMPORTANT DISTINCTION: A small difference exists between Cup and BGN in the les governing driver action during accidents.

Bush Grand National drivers do not race back to the caution under "gentleman's agree-

ment." In other words, if the track is blocked, or if the accident occurs in a situation that is between the leaders and the start-finish line, drivers are not allowed to race. Via radio, a NASCAR official in the tower tells drivers to "back 'em down," and drivers who do not comply can be penalized.

No such mutual agreement exists in the Winston Cup Series.

TOUGH RACE: The attrition was so great in Saturday's Yellow Freight 300 that at least one ambulance had to be summoned. "Atlanta South" lettered on the side, failed mechanically and had to be pushed behind the wall.

ON THE SCHEDULE

THE WINSTON CUP SERIES

Coming up: TransSouth Financial Services 400

Where: Darlington (S.C.) Raceway

When: Sunday, March 21

Defending champion: Dale Jarrett

Event qualifying record: Ward Burton, Pontiac, 173.797 mph, March 22, 1996.

Race record: (for 400 miles) David Pearson, Ford, 132.703 mph, May 11, 1968; (for this race) Dale Jarrett, Chevy, 139.958 mph, March 28, 1993.

Note: Dale Jarrett has won this race the last two years, while Jeff Gordon has won the fall race (Southern 500) four times in a row.

...Darlington, which opened in 1950, is NASCAR's oldest superspeedway.

BUSCH GRAND NATIONAL

Coming up: Diamond Hill Plywood 200

Where: Darlington (S.C.) Raceway

When: Saturday, March 20

Defending champion: Bobby Labonte

Track qualifying record: Jeff Green, Chevy, 166.337 mph, March 22, 1996.

Race record: Michael Waltrip, Pontiac, 138.140 mph, Sept. 5, 1992.

Note: Mark Martin has won five BGN races at Darlington, one more than retired Harry Grant ...

Darlington has been the host of BGN events since the series began in 1982.

CRAFTSMAN TRUCK SERIES

Coming up: Florida Dodge Dealers

400 Where: Miami-Homestead (Fla.) Speedway

Speedway

When: Saturday, March 20

Defending champion: Rick Crawford

Track qualifying record: Jack Sprague, Chevy, 149.283 mph, April 3, 1998.

Race record: Jeff Crawford, Ford, 114.475 mph, April 3, 1998.

Note: Kenny Irwin won this race in 1997, Dave Rezendes in 1996. ...This is the truck's season opener.

Your Turn

Letters From Our Readers

Dear NASCAR This Week,

We were wondering how to get ticket information for Indianapolis, Ind.

Prusten Figgins Toledo, Ill.

Write to Indianapolis Motor Speedway, 4790 W. 16th St., Indianapolis, Ind. 46222.

Dear NASCAR This Week,

Why are the Winston Cup drivers racing in the Busch races? To me there is a big difference between the two. The Winston Cup drivers are the big boys; the Busch drivers are the amateurs. They are the up-and-comers, the new drivers.

It's like baseball. You have the major leagues, the big boys. Then you have the minor-league players who someday hope to become major-league players.

I don't like seeing this. Most of the track races are won by the Winston Cup drivers. Let the Busch drivers have the victorious feeling of the checkered flag.

Dennis Reighard Johnstown, Pa.

Many fans share your opinion. It should be pointed out, however, that the presence of Cup drivers in BGN races increases fan interest in those races and makes them more marketable for television.

Dear NASCAR This Week,

(When you were asked) where Fred Lorenzen won his first race, you meant NASCAR, but he ran well at O'Hare Speedway in Franklin Park, Ill. I know because I was there! Fred drove a 1949 or 1950 Ford at the time, and from then on he won everything in sight. The year was 1957. Shortly afterward, he signed with the Montgomery Oldsmobile of Chicago, which furnished him a new 1957 Oldsmobile. The rest is history.

George & Jan Anderson Rolla, Mo.

Thanks for the info.

A special thanks go out to Field Day helpers at Gove Elementary School. Left to right: Ms. Ruiz, Ms. Navarro and Ms. Browning wearing Mardi Gras masks.

Two Local schools earning free technology

Two local schools, Glades Day School and Gove Elementary School, have joined with thousands of schools across the country to earn free technology through the A+America Free Technology for Schools Program.

Each school is earning "A+Points" which they will redeem for free computers and software for their classrooms.

Just 20,000 A+Points is enough for a new educational software package and 149,000 A+Points will earn a school a new color printer. Schools can earn complete multimedia computers for as few as 900,000 A+Points.

The five year old program is a partnership between schools, A+America, and dozens of supportive companies. School supporters simply save receipts and UPC symbols from participating sponsors and turn them into the schools.

Once the schools turn the receipts into A+America, they earn A+Points which can be redeemed for any of thousands of educational

technology items. A+America schools have already earned more than one million dollars of free technology.

Key sponsors of the program include Duracell, Sprint Long Distance, The Chadwick's of Boston Catalog, Bob's Stores, Pep Boys, The Big Party, Stonyfield Farm Yogurt, Lillian Vernon Catalog and Men's Wearhouse.

Shoemart@Kmart and Hood Dairy are also sponsors. All A+America sponsors donate a percentage of their sales to help these local schools.

School supporters who wish to help these local schools should save their receipts and UPC's and turn them into the school.

Currently Glades Day has 85,765 A+Points and Gove Elementary School has 27,995 A+Points.

Each school has a coordinator who can provide more information about how to help. To learn more about A+America, call 1-800-706-5500 or see their web site at www.aplusamerica.org.

To Save You Time & Money

How we got more than 35 of Florida's best medical specialists in 3,100 sq. ft.

In the past, rural location of Hendry and Glades counties, and our small year-round population, made it difficult to attract specialty physicians to serve area residents.

Starting in 1995, Hendry Regional Medical Center began recruiting Florida's best medical specialists to come to Clewiston weekly, so patients would not have to drive to the east or west coast for expert diagnosis and treatment.

We built three state-of-the-art physician offices on the Hendry Regional campus, and secured outstanding specialists — for adults and children — from southeast and southwest Florida.

Among specialties represented by doctors now regularly scheduling patients in Clewiston:

- ALLERGY, ASTHMA & IMMUNOLOGY
Adults & Pediatrics

- CARDIOLOGY
Adults & Pediatrics

- DERMATOLOGY

- EARS, NOSE & THROAT

- GASTROENTEROLOGY
Adults & Pediatrics

- NEUROLOGY
Adults & Pediatrics

We're **your quality solution close to home.**

- OBSTETRICS & GYNECOLOGY

- ONCOLOGY/HEMATOLOGY

- OPHTHALMOLOGY

- ORTHOPEDICS
Adults & Pediatrics

- PODIATRY

- PULMONOLOGY
Adults & Pediatrics

- UROLOGY

For a roster of specialists scheduling Clewiston appointments, call 941.983.4334

Medicare, Medicaid, PPO, HMO, Private Insurance

Gove Elementary School

It has been an exciting month with the final winning class in the race to Mardi Gras in New Orleans before French Field Days. Mrs. Kathy Miller's class won the privilege to be the King's and Queen's of Field Day and handed out Mardi Gras beads and French coins to all students and personnel at Gove Elementary.

Did you know that there are over 20 countries with French as the official language? That is one of the many questions answered as Gove students traveled around the world. The classes chose a country, made a flag on a banner and some even made T-shirts and painted their faces to represent their country.

The special Field Day started in Canada with ice hockey and learning numbers in French. They then crossed the Atlantic Ocean to France with a hot air balloon parachute ride to the Eiffel Tower. There, the students became a part of the Tour De France (tricycle race), traveling throughout the country side as they learned their colors in French. After France, the students went south over the Mediterranean Sea to the center of Africa to enjoy relays as they learned their shapes in French and found the fastest boy and girl in each grade. Last, but not least, they crossed the Indian Ocean to Australia and the Pacific Ocean to South America.

It was a great adventure in French Guyana by the Amazon River, where they played Piranhas and Minnows (flag tag). After their last station, they went north through the Caribbean Sea, Central America, Mexico, USA and back to Canada.

At every station, they were asked questions and received stickers and points for their team. Classes received All Star Trophies for outstanding sportsmanship, spirit, knowledge of geography and teamwork.

Glades Day School

Gator Tales By Jake Davis and Donna Dixon

The senior class play will be held Friday, March 19, at 8 p.m. at the Dolly Hand Cultural Arts Center. This year's play is a comedy entitled "They Run In Our Family." Tickets can be purchased from seniors of Glades Day School for \$10.

This weekend kicks off Glades Day School's annual Spring Fling. On Saturday, March 20, a golf tournament will be held at the Belle Glade Municipal Golf Course. Anyone interested in playing can sign up for this event any time before Saturday at the courses pro shop.

Spring Fling continues on Sunday, March 21, with a busy day of events at GDS. Many events will be held on the baseball and football fields. The Alumni Baseball game will begin at 2 p.m.

The football field will be the site of the children's activities. A drawing for a Polaris Personal Watercraft will also be held Sunday. Tickets can be purchased for \$50 in the finance office.

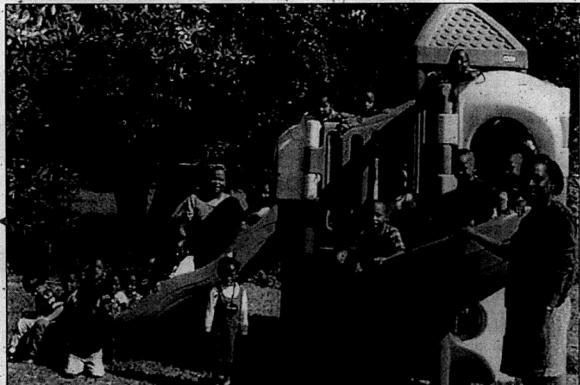

There will also be a BBQ chicken dinner in Tripp Hall at 11 a.m. Tickets will cost \$6 and can also be purchased in the finance office.

There will be no school on Monday, March 22. The day will be a teacher's planning day, a time for students to relax and for teachers to plan for the rest of the year.

On Tuesday, March 23, there will be a Cuban dinner held in Tripp Hall. The dinner will help pay for the girls' volleyball team to attend camp this summer. Tickets are available through members of the volleyball team.

Herff Jones will be delivering the senior graduation announcements on Wednesday, March 24. They will also deliver the sophomore class rings. All items can be picked up in the Gator Room at GDS.

The GDS elementary will be presenting Dan Christopher and his cast of wacky puppets. It is a delightful and educational puppet show entitled "If Trees Could Talk." This event will be held on Friday, March 26 at 9:30 a.m. in Tripp Hall. There will be a donation of \$1 per student to help cover expenses.

The kids at the Peppi Headstart Program got a special treat last week when the Lutheran Ministries of Florida purchased new playground equipment. Members of the Belle Glade Police Department helped put the equipment together along with members of the Sons of Light. A special thank you goes out to Curtis Stambaugh and Alfonzo B. Fundergark for all their hard work.

Floyd Jackson promoted at Dell Computer Corporation

Former South Bay resident

Floyd Jackson, has been promoted to Configuration Management Specialist at Dell Computer Corporation.

The corporation is located in Round Rock, Texas.

Dell Computer is one of the world's top personal computer makers and the world's number one direct sale computer vendor.

Mr. Jackson started with the company in September of 1996 as a Technical Support Technician and has received several awards for his excellent

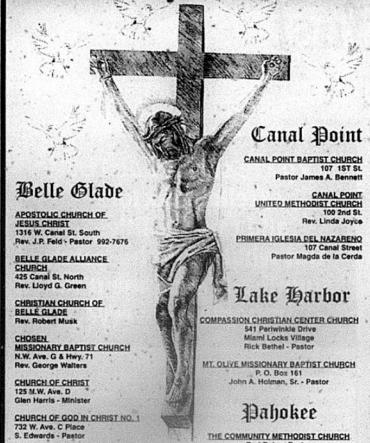

work since joining Dell.

Floyd is a 1989 graduate of Glades Central High School, where he was named scholar athlete of the year during his senior year.

He is the son of Mr. and Mrs. Enios Jackson of South Bay.

Obituaries

Week of March 18, 1999

Eugene McClure, 52, died at Haverhill Care Center on Tuesday, March 9. He was born on Dec. 30, 1946 and grew up in Belle Glade.

Mr. McClure attended Belle Glade High School where he was a member of the band. He was a charter member of Everglades Presbyterian Church, where he was a choir member. He was a member of First Presbyterian Church of Lake Worth.

He was a resident of Haverhill Care Center for the past eight years.

Preceded in death by his father, Cecil, in 1989, he is survived by his loving and devoted mother, Norma G. McClure of Greenacres, his sister, Alma (A.J.) Harrell, nieces Nancy (Jorge) Cano, Linda (Tom) Wagner, nephew Mark (Robin) Harrell,

In addition, he is survived by great nieces, Allisia M. Cano and Heather (Justin) Stabler, great nephews Jorge Cano, T.J. and Brandon Wagner, Chaz and Dillon Harrell, great-great niece, Alysa Stabler and many cousins in Belle Glade an aunt, Bonnie Carson and cousins in South Carolina.

Services were held at E. Earl Smith Funeral Home, Memory Gardens Chapel on Thursday, March 11, with Dr. James H. Hufaker, pastor of First Presbyterian Church of Lake Worth officiating.

Interment was at Memory Gardens in Lake Worth.

Steve Hoff, Jr., 77, of Belle Glade, passed away Monday, March 15 at Palms West Hospital in Loxahatchee.

Mr. Hoff had been a resident of Belle Glade for over 30 years and had retired from the automotive industry several years ago.

He was preceded in death by his wife, LaVaun Hoff and left behind a daughter, Karla Langenwalter of Belle Glade and two grandchildren, Brandon and Brittany Langenwalter of Belle Glade. Mr. Hoff also left behind many friends and relatives who will miss him dearly.

Visitation was held Tuesday, March 16 at Mixon Funeral Home Chapel with funeral services on Wednesday, March 17. Reverend Linda Joyce of Canal Point Methodist Church conducted the services, which were followed by interment at Palm Beach Memorial Park in Lantana.

Mixon Funeral Home was in charge of arrangements.

Janis Flehs was awarded the Girl of the Year from Laureate Gamma Zeta Chapter of Beta Sigma Phi. She was presented with an orchid corsage and a beautiful crystal rose.

Social News

Laureate Gamma Zeta Chapter of Beta Sigma Phi Cal and Jeannette Cearey hosted Laureate Gamma Zeta's Girl of the Year Party on Saturday, March 10 at their home in Wellington. Members and their husbands enjoyed cocktails and delicious hor'devers prior to dinner.

Echo Painter read the following: "Our girl of the year brings joy to everyone and is always willing to lend a helping hand wherever needed. She is an inspiration to those around her. Sincerity is one of her best qualities." Congratulations Janis Flehs, Girl of the Year!

Janis was presented with an orchid corsage and a beautiful crystal rose tray.

Members and their husbands attending the social affair were Virginia and Frank Anderson, Mary Francis and Lee Burke, Jeannette and Cal Cearey, Gene and Francis Cross, Nancy and Hooker, "D" and Mendal Luce, Flo Jones, Edie Kirchman and Echo Painter.

New Harvest Church presents

PETER DANIELS

Guest Speaker

After spending most of his life as an illiterate brick layer barely able to support his family, Peter Daniels today is a multi-millionaire and the president and founder of the World Centre for Entrepreneurial Studies.

Mr. Daniels attributes his success to Jesus Christ. He has a formula for success that will work for all people anywhere.

During the two nights he will be sharing on such topics as "How to come out of debt" and "How to write a vision statement."

Wednesday and Thursday March 24 & 25 ◆ 7:15 PM

Thursday Luncheon 12 NOON ◆ Sonny's BBQ \$10 each

Call 941.983.3181 for more information and to register for the luncheon.

Local student recipient of Youth Sports Achievement Award - Donnie Scruggs, a senior at Glades Day School, received the male high school division 1999 Youth Sports Achievement Award.

Presented by the Palm Beach County Sports Institute, this was given to Donnie for demonstrating outstanding achievement in athletics, academics, citizenship and community service.

The presentation of this award was made during the Unified Sports Festival held at William T. Dwyer High School on Saturday, March 12.

Nominated by his football coach, Pete Walker, Donnie was noted by the presenter Stephen Rodriguez as "having very impressive qualifications and demonstrating motivation, determination and initiative in setting and surpassing your goals."

Pictured with Donnie is Jennifer Geiser, female high school division winner.

Birth Announcement

Camden Michael Thompson

Erin and Captain William Pell Thompson of Las Vegas, Nevada proudly announce the birth of their son Camden Michael Thompson. The grandfather of Don and Alice Thompson of Pahokee was born on Feb. 25 and weighed 6 pounds 11 ounces and was 20 inches long.

Little Camden has a brother Tyler and sister Ashton.

Maternal grandparents are Harold and Kay Fronk of Denver, Co.

Elected officials were sworn in to office Tuesday night at the South Bay Commission. Reelected to the commission were Clarissa Davis (left) and Miranda Smith (center). Dr. Esther Berry (right) was also sworn in to her new commission seat after defeating long-time commissioner Basil Anderson.

ECOSYSTEM/FROM PG. 1

South Bay. The area under study begins in central Florida at the Chain of Lakes located south of the city of Orlando and extends to the reefs which surround historic Fort Jefferson southwest of the Florida Keys. It encompasses all the terrestrial and aquatic habitats in this area. It covers approximately 10,000 square miles and

includes 11 major physiographic provinces.

Over the next several issues we will take a look at the work of the Task Force and what recommendations this group is making to the other groups and organizations who will be doing the actual construction and revitalization work on the entire ecosystem.
